

Situated in Rochester, close to the regional centres of Bendigo and Echuca, and only two hours from Melbourne, Rochester and Elmore District Health Service is an integrated rural health service.

REDHS provides a broad range of acute, aged, primary and public health programs to a population of approximately 6,500 people in the Campaspe and Bendigo Shires.

The organisation is currently undergoing a full redevelopment program at a cost of \$21.7M providing state of the art facilities to the local catchment population, which includes the larger townships of Rochester, Elmore, Lockington, Corop and Colbinabbin. The redevelopment program includes new Acute Ward with an Accident and Emergency bay, new 30-bed Nursing Home, new Operating Theatre and will include a large Primary Care centre with eleven consulting rooms and two treatment areas.

REDHS “Vision for the Future” Strategic Plan aims to ensure recognition for excellence, high quality and sustainable services through integrated and collaborative working relationships.

Clinical Support Nurse

REDHS is seeking a Clinical Support Nurse to develop and implement an in-house education and training program across all clinical areas to support both current and future clinical service provision. This role is pivotal in supporting REDHS in realising our strategic direction.

If you have current clinical knowledge, a commitment to peer education, evidence based best practice, highly developed communication and interpersonal skills and believe that an organisation’s success is achieved through its people, then this role will create a real opportunity for you to shine.

A copy of the position description and any enquiries can be directed to Matt Sharp, Director of Clinical Services on 5484 4444.

Applications

Applications that address the key selection criteria and include a resume should be forwarded to Ali Dobson, HR Manager, P.O. Box 202, Rochester 3561, or via email to adobson@redhs.com.au. Applications close Monday 29th March 2010.
